CEC CLOSED

Monday, August 6:

Updated shot records due
(Fax to 423.756.8589)

Monday, September 10:

CEC Closed, Staff attending fall
conference on 9/8

Next week the Yellowbirds and Greenbirds will attend VBS. This year there is a special preschool session for three year olds-rising kindergarteners. They will be meeting in the Oak Street Playhouse at 9 a.m. each day.

BUTTERFLIES

We need egg cartons for our home living area, and lots of lids of all sizes for an art project.

We're still enjoying our investigation on plants. We have planted several and have plans for a couple more. We are looking forward to watching them grow!

YELLOWBIRDS

The Yellowbirds have had their heads in the clouds as our cloud investigation continues to unfold! From cloud covered wind catchers to red cellophane cloud-watching sunglasses, this investigation has inspired many art projects and games. We have also been matching uppercase and lowercase letters, and are becoming experts on different types of clouds, so don't be surprised if your Yellowbird cloud watcher suddenly exclaims, "Look, a nimbus cloud!"

This week, our investigation took a trip through the rain forest, and we have a feeling there will be lots of jungle animals and plants under investigation in the coming weeks!

Please remember to send your child to school in their swim clothes on Fridays; it would be a big help to us! Thanks!
